

**GCSE PHYSICAL EDUCATION SHORT COURSE**  
**Student Monitoring and Revision Sheet**

Name:..... TG .....

<b>Section 1.1 HEALTHY ACTIVE LIFESTYLES</b>	☺	☹
<b>TOPIC 1. 1. 1 Healthy, active lifestyles and how they could benefit you</b>	☺	☹
<i>Students should be able to:</i>		
Explain what constitutes a healthy, active lifestyle.		
Classify the benefits of a healthy, active lifestyle as social, physical or Mental.		
Describe how physical activity can: increase individual wellbeing help the individual to feel good (serotonin levels) help relieve stress, and prevent stress-related illness increase self-esteem and confidence contribute to good health contribute to enjoyment of life.		
Explain how participation in physical activity can stimulate: cooperation competition physical challenge aesthetic appreciation the development of friendships and social mixing.		
<b>TOPIC 1. 1. 2 Influences on your healthy, active lifestyle</b>	☺	☹
<i>Students should be able to</i>		
Explain the sports participation pyramid with regard to the foundation, participation, performance and elite stages describe the following initiatives developed to provide opportunities for becoming, or remaining, involved in physical activity: latest policies relating to minimum involvement in PE and sport PE School Sport and Club Links (PESSCL) School Sport Partnerships Sport England's Start, Stay, Succeed initiative: <i>Start</i> – increase participation in sport in order to improve the health of the nation, with a focus on priority groups <i>Stay</i> – retain people in sport through an effective network of clubs, sports facilities, coaches, volunteers and competitive opportunities <i>Succeed</i> – create opportunities for talented performers to achieve success the Youth Sport Trust's TOP and Active Kids programmes and their contribution to the development of healthy lifestyles.		
Identify key influences that have an impact on them, and others, achieving sustained involvement in physical activity, including: people: family, peers, role models image: fashion, media coverage cultural: age, disability, gender, race resources: access, availability, location, time health and wellbeing: illness, health problems socio-economic: cost, perceived status of the activity.		
Explain the opportunities available to become, or remain, involved in physical activity in a range of roles (including leadership, officiating and volunteering) and the qualities needed to participate in physical activity in this way.		

Explain the sports participation pyramid with regard to the foundation, participation, performance and elite stages.		
Describe the following initiatives developed to provide opportunities for becoming, or remaining, involved in physical activity: latest policies relating to minimum involvement in PE and sport PE School Sport and Club Links (PESSCL) School Sport Partnerships Sport England's Start, Stay, Succeed initiative: <i>Start</i> – increase participation in sport in order to improve the health of the nation, with a focus on priority groups <i>Stay</i> – retain people in sport through an effective network of clubs, sports facilities, coaches, volunteers and competitive opportunities <i>Succeed</i> – create opportunities for talented performers to achieve success the Youth Sport Trust's TOP and Active Kids programmes and their contribution to the development of healthy lifestyles.		
<b>TOPIC 1. 1. 3 Exercise and fitness as part of your healthy, active lifestyle</b>	☺	☹
<i>Students should be able to</i>		
Explain the terms: health fitness exercise and know how they relate to a balanced, healthy lifestyle and performance in physical activities.		
Know about the components of health-related exercise: cardiovascular fitness muscular strength muscular endurance flexibility body composition and relate each to physical activity, identifying the relative importance of each to different physical activities.		
Know about the components of skill-related fitness: agility balance coordination power reaction time speed and relate each one to physical activity, identifying the relative importance of each one to different physical activities.		
<b>TOPIC 1. 1. 4 Physical activity as part of your healthy, active lifestyle</b>	☺	☹
<i>Students should be able to</i>		
Assess personal readiness (PAR-Q)		
Assess fitness levels for use in an exercise programme (tests for health-related exercise: Cooper's 12-minute run test, hand grip strength test, sit and reach flexibility test, Harvard Step Test, treadmill test; tests for skill-related fitness: Illinois Agility Run test, standing stork test, Sergeant Jump test, standing broad jump, ruler drop test, 30-metre sprint, three ball juggle)		
Describe, explain and apply the principles of training:		

<p>progressive overload specificity individual differences/needs rest and recovery.</p>		
<p>Explain the components of the FITT principle (Frequency, Intensity, Time and Type), noting overlap with other principles of training, and how application of this principle can lead to improved competence and performance.</p>		
<p>Explain the term 'reversibility', why it might occur and its impact on Performance.</p>		
<p>Explain the value of goal setting in terms of planning, developing and maintaining regular involvement in healthy, physical activity.</p>		
<p>Describe, explain and apply the principles of setting SMART (Specific, Measurable, Achievable, Realistic and Time-bound) targets.</p>		
<p>Describe the following methods of training: interval continuous Fartlek circuit weight cross and explain how they can improve health and fitness, by helping to develop physical and mental capacity, and their relationships with the components of fitness.</p>		
<p>Link methods of training to specific physical activities based on the associated health-related exercise and skill-related fitness requirements.</p>		
<p>Plan and present examples from 'typical' exercise sessions to match the fitness requirements of selected physical activities or individuals.</p>		
<p>Understand the exercise session and the purpose of each component (warm-up, main activity, cool-down).</p>		
<p>Explain the use of the principles of training within an exercise programme, showing how they may be applied in planning to improve health-related exercise and skill-related fitness as part of a healthy lifestyle.</p>		
<p>Link methods of training to aerobic and anaerobic activity.</p>		
<p>Understand what is meant by resting heart rate, working heart rate and recovery rates, plot examples on a graph and evaluate results.</p>		
<p>Use graphs to demonstrate and explain the use of target zones and training thresholds.</p>		
<p><b>TOPIC 1. 1. 5 Your personal health and wellbeing</b></p>	☺	⊗
<p><i>Students should be able to</i></p>		
<p>Understand the link between exercise, diet, work and rest, and their influence on personal health and wellbeing.</p>		
<p>Explain the requirements of a balanced diet.</p>		
<p>Explain the importance, and use, of macro nutrients (carbohydrates, fats and protein), micro nutrients (minerals and vitamins), water and fibre for personal health and wellbeing, and maintaining a healthy active lifestyle.</p>		

Explain the need to consider the timing of dietary intake when performing due to the redistribution of blood flow (blood shunting) during exercise.
